MINT **ERROR** NEWSTM MAGAZINE

Bringing the latest mint error news to the collector. Also featuring Die Trials, Test Pieces, Numismatic Rarities, Currency Errors and Discoveries from the U.S. Mint & the BEP.

Mike Byers, Publisher & Editor, Welcomes You!

Welcome to Mint Error News Magazine, bringing the latest mint error news and information to the collector. This is our fifth year bringing you both a print magazine and an online PDF magazine. There are now over 550 articles, features, discoveries, news stories with mint error related info from the United States and around the World. Minterrornews.com has become the most popular and informative Internet resource for mint errors and is read by thousands of dealers and collectors.

Mint Error News was originally sponsored by Mike Byers and ANACS. Due to the popularity of mint errors and the magazine it is now sponsored by Mike Byers and several other mint error dealers including Allan Levy (alscoins.com) and Fred Weinberg (fredweinberg.com). Mike Byers is the Publisher and Editor of Mint Error News Magazine.

BYERS NUMISMATIC CORP
MIKEBYERS.COM

The Largest Dealer of the World's Rarest Mint Errors™
U.S. & WORLD MAJOR MINT ERRORS • DIE TRIALS • NUMISMATIC RARITIES

Mike Byers (mikebyers.com) has been a Professional Numismatist since 1978. He is the largest dealer of the world's rarest mint errors. He specializes in U.S. and World Major Mint Errors and Die Trials. His new discoveries of major mint errors have been front page news for years. He is a life member of ANA since 1985, a charter member of NGC and a featured dealer/member of PCGS. He is a founder member of the California Coin & Precious Metals Association. He is also a life member of the Central States Numismatic Society and the Florida United Numismatists. He is member A71 in the Certified Coin Exchange (CCE). Mike Byers was a Consultant for ANACS for Mint Errors from 2000 to 2006.

Allan Levy has been specializing in Mint and Currency Errors for 25 years. His website features a diverse group of type errors, modern errors and major currency errors. He also handles regular U.S. and World coins. Allan Levy is a member of CONECA and the American Numismatic Association.

Fred Weinberg & Co.
Dealer in Major Mint Error Coins & Currency
fredweinberg.com

Fred Weinberg is the President of Pacific Rim Numismatics (DBA Fred Weinberg & Co.). He is a highly respected numismatist, with 35 years of full time experience in the rare coin marketplace. His professional associations include the American Numismatic Association (ANA) (38 years), the Professional Numismatist Guild (PNG) (31 years), The Industry Council for Tangible Assets (ICTA) (21 years) and The Numismatic Literary Guild. He is a past President of the Professional Numismatist Guild (1999-2001).

Additional sponsors of Mint Error News are Heritage Auction Galleries, CoinLink, CoinFacts.com, uspatterns.com and errorworldclub.org. We encourage collectors and dealers to submit articles and photos of major mint errors that we may feature on the website.

Off-Center Mint Error Sales

by Al Levy (alscoins.com)

Here are records of recent sales of off-center mint errors on eBay:

1. All coins were listed on eBay and closed from July 1, 2007 to September 30, 2007.
2. All lots had buyers. If the coins actually changed hands is unknown.
3. A picture accompanied each lot or it was not recognized.
4. Mislabelled items were ignored.
5. Some lots may have changed hands more than once.
6. "D" next to the date symbolizes that the coin had damage or was scratched.
7. "C" next to the date symbolizes that the coin was cleaned.
8. "B" next to the date symbolizes that the coin had damage and was cleaned.
9. If the date or mint mark was missing or partially visible, parentheses were used.
10. Postage/handling/insurance fees were ignored.
11. Major auctions were not listed.

Saul Teichman's Want List

I am looking for the following off-metal errors:

Wartime Nickel on a copper cent planchet

Bicentennial Half on a copper cent planchet

Bicentennial Half on a dime planchet

Kennedy Half on a Sacagawea dollar planchet - if it exists

Ike Dollar on a nickel 5 cent planchet

Ike Dollar on a quarter planchet

Sacagawea Dollar on a cent planchet - if it exists

Sacagawea Dollar on a nickel 5 cent planchet

Sacagawea Dollar on a dime planchet - if it exists

Saul.Teichman@ey.com

Double Denomination & Off-Metal Mint Error Sales

by Al Levy (alscoins.com)

HERE ARE RECORDS OF RECENT SALES OF DOUBLE DENOMINATION & OFF-METAL MINT ERRORS ON EBAY FROM JULY 1, 2007 TO SEPTEMBER 30, 2007.

1. ALL LOTS HAD BUYERS. IF THE COINS ACTUALLY CHANGED HANDS IS UNKNOWN.
2. A PICTURE ACCOMPANIED EACH LOT OR IT WAS NOT RECOGNIZED.
3. BLURRY PICTURES OR OTHER PROBLEMS ARE NOTATED UNDER "OBSERVATION".
4. ITEMS MISLABELLED COMMANDED A SMALL PREMIUM.
5. SOME LOTS CHANGED HANDS MORE THAN ONCE.
6. ANY SCRATCHES, DENTS OR DEFECTS NOTATED WERE EITHER IN THE DESCRIPTION OR GRADING SERVICES' HOLDERS.
7. AUCTION HOUSES THAT LISTED THESE ERRORS WERE IGNORED.
8. SHIPPING CHARGES ARE NOT INCLUDED.

DESCRIPTION	GRADED	SOLD	OBSERVATION
DOUBLE DENOMINATIONS			
1994-P STRUCK CENT ON A STRUCK DIME	ANACS 60	565.00	FLIPOVER-LOTS OF DETAIL. ONE DATE VISIBLE IN SCAN.
1997-(P) STRUCK CENT ON A STRUCK DIME	ANACS 58	622.99	CENT STRIKE 90 DEGREE TURN WITH FULL DATE. DIME SHOWS ^J DATE AND PART OF MM.
1999-P STRUCK CENT ON A STRUCK DIME	GEM BU	661.00	TWO FULL DATES + MM. LOTS OF DETAIL REMAIN FROM DIME STRIKE.
2000-P STRUCK CENT ON A STRUCK DIME	GEM BU	898.88	MOST OF CENT DATE SHOWS. PART OF DIME'S DATE. COMPLETE MINTMARK.
2000-P STRUCK CENT ON A STRUCK DIME	NGC 66	934.00	ALL OF CENT DATE SHOW. FULL MM FROM DIME BUT HARDLY ANY DATE.

Waffled Coin Sales

by Al Levy (alscoins.com)

WAFFLED COINS SEEM TO BE POPULAR. NOT COMMANDING PRICES THEY ONCE DID. HOWEVER, A SUBSTANTIAL GROUP OF CENT THROUGH DOLLAR SHOWED UP ON THE MARKET. EVEN FOREIGN COINS ARE BEGINNING TO APPEAR.

HERE ARE RECORDS OF RECENT SALES ON EBAY FROM JULY 1, 2007 TO SEPTEMBER 30, 2007.

THE US GOVERNMENT CLAIMS THESE ARE NOT COINS.

Buffalo Nickel “Speared Bison” & Wisconsin Quarter “Extra Leaves”

by Al Levy (alscoins.com)

PLEASE NOTE: THE ERROR TYPES LISTED BELOW WERE EBAY LOTS THAT CLOSED WITH A HIGH BIDDER. IF THE RESERVE PRICE WAS NOT MET, OR PICTURE WAS NOT ATTACHED, THEN I IGNORED THE AUCTION. FUZZY PICTURES, OR QUESTIONABLE DESCRIPTIONS ARE NOT INCLUDED.

THE BUFFALO 5c “SPEARED BISON” & THE “WISCONSIN” 25c EXTRA LEAFS ARE EBAY ONLY SALES. DEALERS ARE STOCKING AND SELLING THESE AT SHOWS. PRICES HAVE COME DOWN. DEMAND HAS DIMINISHED.

THE HIGH LEAF IS SCARCER THAN THE LOW LEAF. CHECK OUT THE SALES TOTALS AS BOTH VARIETIES ARE ABOUT THE SAME IN QUANTITIES. STILL VERY ACTIVELY TRADED.

END OF ROLL COINS. COLLECTORS NEED TO KNOW THAT THERE IS A MACHINE ON THE MARKET THAT WILL ALLOW ANYONE TO ROLL YOUR OWN COINS. IT IS A CRIMPING MACHINE TO BE USED WITH PRE-CRIMPED (SHOTGUN SHELL) STYLE WRAPPERS. BUYER BEWARE!!!

FROM 7/1/07 TO 9/30/07

Thomas Jefferson Presidential Dollar Mint Error Sales

Editor's Note: Instead of the usual quarterly sales record, here is a listing of the most recent sales through November 5th, 2007:

A PCGS MS 66 Weak Edge Lettering Jefferson Dollar sold on eBay for \$831.00 on Nov. 5.

A PCGS MS 65 Partial Edge Lettering Jefferson Dollar sold on eBay for \$1,404.00 on Oct. 30.

A PCGS MS 65 Partial Edge Lettering Jefferson Dollar sold on eBay for \$899.00 on Oct. 30.

Doubled Die Sales

by Al Levy (alscoins.com)

I DID NOT COMPARE THE LISTED DIE NUMBER IN THE AUCTION TO THE DESIGNATED DIE NUMBER ACTUALLY ASSIGNED. THERE WERE TOO MANY VARIETIES TO TRY AND COMPARE SO I TOOK THE WORD OF THE SELLER. IT WAS INTERESTING TO NOTE MANY OF THESE DOUBLED DIES WERE LISTED BY THE AUTHENTICATORS. MANY OF THE COINS LISTED DID NOT SELL. PCGS GRADED COINS BROUGHT THE HIGHEST PRICES.

HERE ARE RECORDS OF RECENT SALES ON EBAY FROM JULY 1, 2007 TO SEPTEMBER 30, 2007.

www.northeastcoin.com

High quality “fresh” coins are what we are known for and take pleasure in offering. We constantly are hearing from our customers about our excellent prices and high customer service. 2003 is our 39th year of business, so order with complete confidence. Also, please keep in mind that we are always buying coins of all kinds, certified and uncertified, to fill our want lists.

PCGS Certifies Jefferson Dollars With Missing Edge Lettering

by Mike Byers (mikebyers.com)

PCGS just certified a small group of Jefferson Dollars that are Missing the Edge Lettering. As reported in a recent front page Coin World article, these were discovered in the Midwest and were purchased by Fred Weinberg. The Mint State 68 “Missing Edge Lettering” Jefferson Dollar is featured on the cover of this issue of Mint Error News Magazine. It is the only Mint State 68 Presidential Dollar (and the

finest known) that has been graded at PCGS for the entire Presidential series to date, including all mint errors and regular coins struck for circulation.

The discovery coin, which made headlines as well, was discovered in the Midwest. It recently sold on eBay for \$4,050.00 and was certified MS 65 by PCGS.

World Errors

by Fred Weinberg

Here are a few World Errors that I recently purchased from a collection that was assembled over many years.

(1982-85) Israel 10 Sheq. Struck 30% O/C on 2.5gm Copper (Canadian Cent?) Planchet PCGS MS 62 Red

Unique NGC Set of Three Paraguay Gold Overstrikes

by Mike Byers (mikebyers.com)

This is a unique set of nineteenth century Paraguay patterns that were overstruck on previously struck gold coins. NGC recently certified another set which was published for the first time as a Mint Error News Magazine cover story.

Throughout history, some overstrikes were intentionally produced for several reasons. Sometimes overstrikes occur due to a coinage shortage. Another factor is the lack of available planchets to strike a new design.

In modern times, overstrikes are considered mint errors. Overstrikes are coins that have been struck over a struck coin. Generally speaking, there are two major types of overstrikes. The first type would be a double denomination (a Lincoln Cent struck over a struck Dime). Although these are overstrikes, they are referred to as double denominations and are known on many denominations of coins from many countries.

The second type of overstrike is a coin which is struck (either deliberately or as a mint error) on a previously struck coin from a different era and country. In ancient times, it was not uncommon to strike coins over previously struck coins with portraits of earlier Kings. In Colonial times, coins circulating were sometimes struck using other coins that were in circulation, regardless of whether they were from the country striking the coin or from a different country.

An example of a rare overstrike is a 1915 Panama Half Commemorative which was struck in Proof over a cut down St. Gaudens \$20 gold piece. Another example is a rare overstrike from Mexico. It is a gold 8 Escudos struck over an earlier type and is listed in Krause as rare. The Panama Half and 8 Escudos were intentional overstrikes. There are also examples of unintentional overstrikes which are classified as mint errors.

The fascinating aspect of this unique set of Paraguay overstrikes is the fact that the dies used were unfinished pattern dies which had incomplete dates and that these patterns were struck over struck gold coins. These gold coins were from Peru, Chile and Argentina and are on different denominations with different dates. Several of the gold coins that were overstruck are either rare dates or rare types and were in spectacular condition when they were hand selected. There is no doubt that this was a presentation set that was struck in the Mint and preserved to this day in mint state condition. This set is one of the most historic, dramatic and unusual numismatic rarities ever struck by an official Mint.

2007 INDIA 5 RUPEES DOUBLE STRUCK ON FEEDER FINGER

Recently, several coins struck on feeder fingers from India were discovered. This India 5 Rupees was double struck and bonded to an actual feeder finger.

The only other known strike on a complete feeder finger is a 1998 Chile 10 Pesos. This spectacular Major Mint Error was featured on the cover of the first issue of Mint Error News Magazine.

Mint Error Collection Sold

Editor's Note: A collector and part-time mint error dealer recently sold his collection. It included off-centers, brockages, die trials, uniface strikes, mules, two-tailed coins, die caps, double strikes, die cap mated pairs, several bonded coins, a coin struck on a feeder finger and several coins struck in gold instead of the intended metal. There were also canceled dies of world coins and other unique strikings from Mints around the world in this collection. This collection was separated and sold to several dealers. You might occasionally find a few of these being sold by dealers on eBay, in their price lists and at coin shows. Here is a selection of interesting items from this collection:

Overlooked Error Coin Series

by Rich Schemmer (richerrors.com)

What do you collect? Off Centers, Double Strikes, Caps, Clip planchets, Fragments, Off Metals, whatever? On what type of coin? Lincoln cents, Jefferson nickels, Washington quarters, etc? By dates or all of the above?

Well, how about collecting a very under-collected series that stand to have great growth potential.

How many have a collection of War Nickel mint errors? These were produced from 1942 to 1945. How about just errors on the 1943 Steel Lincoln cent, a 1 year coin NOT made of copper (copper was needed for bullets during WW2).

Something a little cheaper? How about the 1958 Lincoln Cent, the very last year for Wheat Cent reverses or the 1959 Lincoln Memorial Cent, the 1st year of the memorial series.

For those of you who want a series a bit tougher & expensive, try Colonial Copper errors or Half Cent errors, Three Cent Silver or Nickel errors, a complete set of Planchets (unstruck) of every coin made at the U.S. Mint. Sets like the ones mentioned above are destined to be major auction items some day when you are ready to sell. These will be sought after by many dealers in the numismatic hobby as few will have seen error collections like these before.

Ok, you may want something more modern. How about Double Denominations with 2 different dates?

Overlooked Error Coin Series

Example: the 11c piece (Cent struck on a Struck Dime). The Cent may be dated 1999 and the Dime 1998, this happened in the very last part of the year, where a few 1998 dimes were left accidentally in a coin tote bin. Cent planchets were put in the same bin to be struck by the 1999 dies. Tough to locate and expensive, but they are rare.

What I'm trying to have you do is use your imagination when collecting. Don't follow what everyone is doing since that only means there's a lot of that particular material out there. Try something no one else is doing. Something that will make your collection unique.

Good luck, have fun and take your time!

Mike Byers, Professional Numismatist since 1978

Byers Numismatic Corp. A California Corporation Since 1980

Mike Byers is the Publisher & Editor of Mint Error News Magazine

From the Grading Room: 1825 Great Britain Pattern Farthing Mule, Struck in Platinum

Editor's Note: This article and others can be found on the NGC website, ngccoin.com

This highly unusual pattern coin dates from the late 1820's, when the British Royal Mint was exploring the use of platinum for coinage. The hardness of the metal proved difficult for striking, and thus some details are not full struck up. This is most apparent on the obverse legend, which shows some softness. Whether because of the technical challenges or some other reason, no platinum was used for coinage in Great Britain until 2007, when it was introduced as part of the Britannia bullion series.

Adding to the interest of this pattern is the unusual selection of dies. No dies were made especially for its production; instead two expired or discarded dies were chosen, perhaps because there were concerns that the hardness of platinum could cause a die to break or splinter during striking. The obverse die belongs to the 1812 Pattern 9 Pence Bank Token (S3773A), and the reverse is from an 1825 Farthing.

A coin struck from obverse and reverse dies intended for different coins is called a mule. Incorrect pairings of this type can occur as error coins, in the case of the widely publicized States Quarter/Sacagawea Dollar mule, or as pattern coins, as in the case of the 1860 Transitional Half Dime, J-267.

This example is one of just a few known, and it has been assigned its catalog number P-1419, from English Copper, Tin and Bronze Coins by C. W. Peck. It was graded MS-61 by NGC.

From the Grading Room: \$50 Gold Eagle Error

Editor's Note: This article and others can be found on the NGC website, ngccoin.com

The U. S. Mint's American Eagle gold bullion coin program debuted in 1986, and this called for the creation of several new collar sizes for the four-piece line-up. There was bound to be some trial and error as a result, yet the number of mint error coins actually escaping careful inspection at the mints has remained extremely small for the American Eagle series.

This amazing gold one-ounce coin dated MCMLXXXVI (1986) is just such an error, a coin struck almost entirely out of the collar. In fact, just a trace of the collar's reeding is visible along the reverse rim. Both sides reveal tripled images of all peripheral

elements, as a consequence of the coin's unrestrained expansion between strikes.

It is the fate of many mint errors that manage to find their way to collectors to become damaged by the mint packaging equipment, due to the coins' non-standard shape. This lovely specimen, however, is a gorgeous gem which has been certified by NGC as MS-69. It is boldly struck, fully lustrous and reveals just the faintest hint of milky toning. It is encapsulated in the EdgeView™ Holder, enabling viewing of the coin's plain edge.

From the Grading Room: \$50 Gold Eagle Error

CONECA

The Combined Organizations of Numismatic Error Collectors of America

CONECA is a national numismatic organization devoted to the education of error and variety coin collectors. CONECA focuses on many error and variety specialties, including doubled dies, Repunched mintmarks, multiple errors, clips, double strikes, off-metals and off-centers -- just to name a few. It publishes an educational magazine, The Errorscope, which is printed and mailed to members bimonthly. CONECA offers a lending library, examination, listing and attribution services; it holds annual meetings at major conventions (referred to as Errorama) around the country, and offers auction services to its members. Please visit conecaonline.org and enjoy!

CONECA Variety Attribution Services

CONECA offers two attribution services. One service enables members and non-members to send their coins directly to an authorized CONECA attributer. The other service is offered through the numismatic grading firm of ICG and enables CONECA members and non-members to have their coins attributed by a CONECA attributer and then graded and slabbed by ICG.

CONECA Error Examination Services

CONECA offers two examination services. One service enables members and non-members to send coins to an authorized CONECA examiner who will return an opinion of each coin's error classification. The other service is offered through the numismatic grading firm of ICG and enables CONECA members and non-members to have their coins examined by a CONECA examiner and then graded and slabbed by ICG.

Terms and Conditions

We are offering this service for error collectors and dealers alike. In order to post your item on our website you must agree to the following terms and conditions.

1. All major U.S. mint errors are accepted if they are certified by PCGS, NGC, ICG or ANACS.
2. The approximate value of each item must exceed \$5,000.
3. Each item must meet our inventory criteria in terms of desirability and market value.
4. Byers Numismatic Corp charges a 10 % commission for each sale.
5. The minimum time for any listing is thirty days.
6. Seller agrees to a seven day return privilege from date of receipt.
7. Seller agrees to use an escrow service if requested by the buyer.
8. We reserve the right to deny or cancel any listing at any time.
9. All listing are subject to prior sale.

Please do not offer us the following:

1. More than two coins bonded together.
2. Caps more than ½ inch high.
3. U.S. Errors that were obviously and intentionally struck as error coins. No impossible mint errors.
4. We only accept consignments of U.S. Errors that were legitimately released through normal distribution channels.

Scanning Specifications

1. Scan both the obverse and reverse of the entire holder.
2. Scan with a resolution of at least 300 dpi.
3. Save the picture in jpeg format (jpg).

Information Requirements

In addition to e-mailing a photo of your item, please include the following information:

1. Name, Address & Phone Number
2. E-Mail Address
3. Asking Price

After your item is listed, we will contact you by e-mail with any offers and questions. Once a price is agreed upon we will handle the entire sale for a 10% transaction fee, which includes all costs (eBay fees, grading fees, webmaster charges, postage and registration fees, insurance, paperwork, etc.).

If you have a Mint Error collection for sale or would like to sell your duplicates and do not want to consign your coin(s), we can purchase your entire collection outright. Please contact us at mike@mikebyers.com.

Mint Error News Price Guide

- Entire Price Guide Updated 11/01/07 -

This price guide is brought to you by Mint Error News. It has been compiled by many of the top major mint error dealers.

This price guide is a guide. Prices fluctuate due to the date, grade, eye appeal and how dramatic the striking error is. Rarity is also a factor. The price is sometimes based on the rarity and grade of the type of coin as well as how rare the error is. The price can also vary depending on whether two collectors are bidding for the same rare major mint error. When purchasing a mint error, it is important to use multiple resources to determine value, as there are many mint errors that do not fit into one category.

Proof Errors

Proof coins are struck by technicians who hand feed the blanks into special presses. They are produced, examined, and packaged using extreme quality control. It is very unusual to find major proof errors. A few broadstrikes, off-centers, double strikes in collars and off-metals have been known to be found in sealed proof sets. Proof errors are aggressively sought after by many error collectors.

A very small group of Proof errors recently came from a collection that was auctioned by the State of California. The U.S. Secret Service inspected and released this collection to the State of California determining that it was legal to own. The State of California then auctioned the collection and it has been dispersed since the sale.

Denomination	Broadstrikes	Die Trials	Double/Triple Strikes	Off-Center Strikes	Partial Collar Errors
Proof Lincoln Cent	\$1,500 - \$2,500	\$2,000	\$4,000	\$1,500 - \$3,000	\$750
Proof Jefferson Nickel	\$2,500 - \$4,000	\$4,000	\$6,000	\$2,000 - \$5,000	\$1,000
Proof Clad Dime	\$3,000 - \$5,000	\$4,000	\$6,000	\$2,500 - \$5,000	\$1,250
Proof Clad Quarter	\$4,000 - \$5,000	\$5,000	\$10,000	\$7,500	\$1,500
Proof Clad Half	\$5,000 - \$7,000	\$4,000 - \$5,000	\$10,000	\$10,000	\$2,000
Proof Ike Dollar	\$10,000	-	\$20,000	-	\$4,000
Presidential Dollar	-	-	-	-	1 Known (Madison)

Mint Error News Price Guide

Broadstrikes

A broadstruck error occurs when a coin is struck without the collar to form the rim and edge that is part of the shape of the coin. Coins can be broadstruck on either type one or type two planchets. When a coin is broadstruck the blank being fed into the collar will spread and distort outward as it is being struck because the collar isn't in the correct position to retain it.

Denomination	(Small) XF/AU	(Small) Unc	(Large) XF/AU	(Large) Unc
Large Cent	\$150	\$300	\$400	\$1,500

Mint Error News Price Guide

Partial Collars

Partial collar strikes occur when there is a malfunction of the striking press. This causes the collar to be in an incorrect position. The lower die (usually the reverse die) is recessed in the collar. This allows the coin which is going to be struck to have a formed rim. After a coin is struck the lower die raises upwards, pushing the struck coin out of the collar and ejecting it. If a blank entering the collar is not properly seated, it will only have partial reeding as it is struck. The edge of this coin will have a partial reeding and a partial blank surface area. Recently, the Mint has installed new machinery where either die can be installed in either position.

Uniface Strikes

Uniface coins occur when there have been two blank planchets in the press at the same time. The other blank will obstruct the die on either the obverse or reverse side, which will prevent it from having that design on the coin. There are many different variations involving uniface errors. In addition to having a 100% blank obverse or reverse, a coin can be struck off-center, with a blank planchet in the collar which will obstruct one side of the off-center. There are also mated pairs which have a combination of multiple errors which can include a side which is uniface. Finally, there are uniface strikes due to a die cap which adhered to the die, forming itself in the shape of a die and striking blank planchets.

Bonded Coins

Bonded coins occur when the feeder system, which supplies blank planchets to the coin press, malfunctions and jams. When this occurs, a struck coin is not properly ejected and another planchet is fed into the collar and is struck. This struck coin will land on top of the previously unejected strike. These coins will then crush and bond together. This may occur many times as more coins bond.

Coins Struck on Feeder Finger Tips

After a recent tour of the U.S. Mint in Philadelphia, it was discovered that the minting process had changed to some degree. One of the changes was that “feeder fingers” were used during the striking of all denominations of U.S. coins. Prior to this tour, U.S. coins that were struck on feeder finger tips were authenticated and described as being struck on aluminum scrap. Coins from all modern denominations have been discovered that were struck on the tips of these feeder fingers.

Struck Fragments

The blanking press takes the coils of metal strips and punches blanks out of it, ejecting the webbing at the other end. The webbing is cut into small scrap pieces to be melted and recycled. Occasionally a scrap piece will be mixed with the blank planchets and struck by the dies. Struck fragments are rare in the larger denominations. These can be uniface or die struck both sides and are very rare on type coins.

Mated Pairs

Mated pairs involve two individual coins with different errors that were struck together at the same time. Mated pair error combinations can be found in most error types and come in many shapes and sizes. Mated pairs can be overlapped when one of the coins is struck off-center on top of another coin. Another type involves a brockage where a struck coin was perfectly centered on a blank and restruck. Some mated pairs involve a die cap where the cap and brockage coin are discovered together, but this is a scarce find.

The rarest mated pair type involves two die caps (obverse and reverse) where both dies were capped at the same time and both die caps are mated. This last type is extremely rare and there are only a few known examples of mated pairs involving an obverse die cap and reverse die cap. There are several of these mated pairs known on Kennedy Halves including two dated 1976, which is the Bicentennial year. One of the most spectacular mated pairs involve two Barber Dimes, an obverse die cap mated to a reverse die cap and are unique.

Mated pairs can also involve an off-metal where a smaller blank planchet or smaller struck coin was struck on top of a larger coin. This type is extremely rare. The most spectacular pair known is a double struck Franklin Half which was mated to a Lincoln Cent. The Lincoln Cent blank was on top of the obverse of the struck Franklin Half. This pair was then struck together. It is unique.

Transitional Errors

A transitional error occurs when a coin is struck on a planchet from a previous year with different metal composition. The most famous transitional is a 1943 copper cent struck on a 1942 copper blank. 1943 cents were struck in steel because of the copper shortage during World War II. Other famous transitionals include 1965 coinage struck in silver instead of clad.

There are also transitionals struck on blanks for the next year. An example is 1964 coinage in clad instead of silver. Most recently, transitionals were discovered involving the SBA and Sacagawea Dollars of 1999 and 2000. There are eight known 1999 SBA Dollars struck on the brass planchet for the 2000 Sacagawea Dollar, and four known 2000 Sacagawea Dollars struck on a clad planchet for the 1999 SBA Dollar.

Denomination	Off-Metal Planchet	Circulated	AU	Unc	Choice Unc – Gem

U.S. Gold Errors

Major mint errors on U.S. Gold coins are the most prized category of all mint errors. Gold errors are very rare and a few have traded in the \$75,000 to \$100,000 range. Even a broadstruck U.S. Gold coin can easily sell for \$15,000 to \$30,000 compared to a broadstruck Cent, Nickel, Dime or Quarter which all sell for well under \$10. Many serious collectors of Gold Errors have to wait patiently for months and sometimes even years to acquire that one special piece for their collection.

The prices listed here are for common dates in AU-Unc. Better dates and errors that are in gem condition are worth considerably more.

Denomination	Partial Collar	Broadstruck	Clipped Planchet	3% - 5% Off-Center	10% - 15% Off-Center

Indents

An indent error occurs when two blanks are fed inadvertently into the same collar, with one blank partly overlaying on top of the other. When the hammer die strikes this combination, the upper blank will be forced into the lower blank, creating a depression which is shaped similar to the upper blank. A scarce type of indent occurs when a blank intended for one denomination lands on top of a blank from a different denomination.

Die Caps

Die caps are caused when a struck coin sticks to the upper hammer die. Once the coin is struck to the die face, the reverse of the struck coin becomes the new die face. When the next blank is fed into the collar and the strike occurs, the reverse design of the adhered struck coin impresses itself into the new blank. This struck coin is a brockage strike. The coin that adhered to the upper die is known as a die cap. This process repeats itself as more coins are struck by the cap. The greater the number of strikes, the higher the cap metal will be pushed around the upper die shaft. Eventually, the cap brakes away from the die in the shape of a thimble.

Die Adjustment Strikes

Die adjustment strikes are also known as die trials. This error occurs when a coin is struck from the press with very little pressure. When the press is being set up and adjusted, extremely weak strikes occur as the strike pressure reaches its optimum level. These die trials are destroyed after being struck and are rarely found in circulation.

Double Denominations

One of the most expensive, popular, and desired types of errors are the double denominations. This error happens when a coin is struck on a previously struck coin of a smaller denomination. Examples are a cent on a struck dime, and a nickel on a struck cent. The most dramatic are those with considerable design visible from the original strike. There are a few known double denominations with different dates.

Denomination	Struck On	Circulated	AU	Unc

Brockages

A brockage error can only occur when there are two coins involved. One of the coins involved will always be a struck coin which has not ejected properly. That struck coin will find its way back between the dies and will be struck next to a blank planchet which was fed into the collar. The image of that first struck coin will be impressed into that side of the blank planchet. The result will be a second coin which has images of the first coin impressed into it. Those images will be pressed into the coin and the image will be in reverse. This incuse sunken image is known as a brockage.

Double & Multiple Strikes

When a blank planchet is struck by the dies, the normal procedure is for the feeders to eject the struck coin out of the collar and into a chute. If there is a malfunction and the struck coin isn't ejected, it may receive a second or third strike by the dies. A multiple struck coin can happen in many ways and have many combinations of errors.

(Since each double and multiple strike can vary from being 10% off-center to 90% off-center, the prices listed below can be substantially more based on the percent off-center and dramatic overall look.)

Off-Center Strikes

Off-center coins are one of the most common and best known types of errors. This happens when a blank which is supposed to be fed into the press, lands in the collar improperly. When this occurs only part of the blank is between the upper and lower dies. When the dies strike the blank, only that part will be struck with a design.

Off-Metals

Off-metal and wrong planchet errors occur when a correctly made blank from one denomination is accidentally fed into a press for another denomination. Examples are a nickel struck on a cent planchet and a cent struck on a dime planchet. The coin struck on an incorrect blank will weigh exactly what the denomination of that blank would have been. An even more dramatic wrong planchet error is a coin struck on a previously struck coin of a different metal.

Counterbrockages

A counterbrockage error involves a cap die and a previously struck coin. When a cap die strikes a previously struck coin, the obverse design from that struck coin will be impressed into the cap. The result will be a design where the cap face will be an incuse brockage. When a new blank is struck by this cap die with an incuse brockage image, the obverse will have a raised and spread image from that incuse design of the cap. This brockage impression is known as a counterbrockage.

Fold-Over Strikes

A fold-over coin is one of the most dramatic types of errors. It occurs when the blank is standing vertically between the dies. During the strike, the force is so great that it bends and folds the blank. These fold-overs can be on-center or off-center, and come in many different shapes. There are a few fold-overs with multiple errors, either with an additional strike or fold-over. Denominations above quarters are very scarce.

Martha Washington Test Pieces

There is one set of a Dime, Quarter and Half struck by Martha Washington dies that are permanently housed in the Smithsonian Institute, embedded in blocks of lucite. According to United States Pattern and Related Issues, by Andrew W. Pollock III, “the only trial pieces purported to have survived metallurgical testing in 1965 were the Dime, Quarter Dollar, and Half Dollar equivalent strikes in copper-nickel clad over copper.”

Mike Byers’ discovery of the Martha Washington Test Piece on a copper-zinc Cent planchet struck 10% off-center with a uniface reverse was a front page Coin World article on August 7th, 2000.

Mint Error News Price Guide

Missing Edge Lettering

A mint error has recently been discovered on the new Presidential Dollars. These coins inadvertently left the United States Mint without edge-lettering on them. The inscriptions 'In God We Trust,' 'E Pluribus Unum,' as well as the mint mark and year are absent from these errors.

The Jefferson Dollar Missing Edge Lettering discovery coin recently sold on eBay for \$4,050.00 and was certified MS 65 by PCGS.

(Prices as of November 1, 2007 and are for certified pieces by PCGS and NGC)

Denomination	MS 63	MS 64	MS 65	MS 66	MS 67
Washington Dollar	\$95	\$135	\$185	\$300	\$2,250
Adams Dollar	\$650	\$800	\$950	\$1,750	\$3,500
Jefferson Dollar	\$1,750	\$2,250	\$3,500	\$5,000	\$7,500

1978 Mint Error Catalog

Editor's Note: Here is another in a series of Mint Error Catalogs from Fred Weinberg when he was with Numismatics, Ltd. It is always exciting to compare current mint error prices with those from decades ago. Mint Error News Magazine thanks Fred Weinberg (fredweinberg.com) for sharing these with our readers.

ERROR WORLD

Join the *hottest*
Error Coin Club on the Net!

e r r o r w o r l d c l u b . o r g

The Error World on-line coin club exists for the purpose of advancing the knowledge and the field of error coin collecting.

Error World is dedicated to the promotion, discussion and dissemination of facts and ideas about error coinage, both domestic and world-wide.

Error World exists as a vehicle to bring collectors of both foreign and domestic error coinage together in a professional and relaxed atmosphere where they can exchange information, display photos and engage in lively debate about error coinage.

Error World is a non-profit organization with all revenues being put back into the club to provide improved services to the members of the club.

Error World will, from time to time, accept contributions from designated Patrons in the form of contest prizes, and/or cash to be used to defray club expenses.

Error World will, from time to time, attempt to obtain sponsors from the numismatic field who will bring price saving offers to Error World members.

Jim's Coins Auction Catalog

MAIL BID SALE #24 CLOSES NOVEMBER 30, 2007

- 1) SEND ALL BIDS TO: JIM'S COINS, 702 N. MIDVALE BLVD. B-2, MADISON, WI 53705, OR FAX #608-233-0175, OR PHONE 608-233-2118, OR EMAIL: jimcoins@sbcglobal.net
- 2) THE HIGHEST BIDDER ACKNOWLEDGED BY THE AUCTIONEER SHALL BE THE BUYER. THE AUCTIONEER RESERVES THE RIGHT TO REJECT ANY BID OR WITHDRAW ANY LOT FROM THE SALE. BIDDERS ARE RESPONSIBLE FOR THEIR OWN ERRORS, SO DOUBLE CHECK YOUR BIDS. THE FIRST POSTMARK WINS IN CASE OF A TIE BID.
- 3) ALL SALES ARE FOR CASH AND ARE PAYABLE IMMEDIATELY UPON RECEIPT OF THE INVOICE.
- 4) AUCTIONS ARE OPEN TO ALL AND NO DEPOSIT IS REQUIRED OR DESIRED.
- 5) NO UNLIMITED BIDS ARE ACCEPTED. WINNING BIDDERS WILL BE AWARDED LOT AT A 10% ADVANCE OVER THE SECOND HIGHEST BID. IF NO OTHER BIDS ARE RECEIVED FOR A LOT, THE BIDDER WILL BE AWARDED THE LOT AT THE MINIMUM BID, OR ESTIMATE IF NO MINIMUM IS GIVEN.
- 6) ALL ITEMS ARE GUARANTEED GENUINE. BIDDERS MAY RETURN ANY ITEM NOT AS DESCRIBED.
- 7) A \$1 HANDLING CHARGE WILL BE ADDED TO ALL WINNING INVOICES. BID EARLY AND BID OFTEN. THANKS! -LEN & JIM

Fred Weinberg & Co.

Dealer in Major Mint Error Coins & Currency

fredweinberg.com

BUYING MAJOR ERROR COINS & CURRENCY

If you have a single major mint error coin, either a recent issue or an older type coin, or 1,000 Off-Center Cents, please contact us. We stock over 60,000 Major Mint Error Coins and constantly need to purchase Major Error Coins for our clientele (please note that we do not deal in or buy Die Varieties, Damaged Coins, Doubled Dies, Filled Dies, or Die Cracks).

We do buy Major Mint Errors - such as Off-Center, Off-Metals, Double Strikes, Clad Layers missing, Die Caps, Double Denomination, etc.

Because of the many differences in each Error Coin we request that you send scans of your coin(s) to us for our examination and firm offer.

BYERS NUMISMATIC CORP

MIKEBYERS.COM

The Largest Dealer of the World's Rarest Mint Errors™

U.S. & WORLD MAJOR MINT ERRORS • DIE TRIALS • NUMISMATIC RARITIES

We are the largest dealer of the world's rarest mint errors. We handle the finest Major Mint Errors, Die Trials, Test Pieces, Numismatic Rarities, Currency Errors and Discoveries from the U.S. Mint and the BEP.

Our premier inventory includes only the best, museum quality, world class and exotic U.S. and World rarities. Many of our purchases are immediately sold to our customers and are never offered on our website or in our catalog to be sold. Visit our Consignment Showcase to browse the mint errors we have on consignment. Send us your want list, we may have just what you're looking for.
