MINT **ERROR** NEWSTM MAGAZINE

Bringing the latest mint error news to the collector.

Mike Byers, Publisher & Editor, Welcomes You!

Welcome to Mint Error News Magazine, bringing the latest mint error news and information to the collector. This is our sixth year bringing you both a print magazine and an online PDF magazine. There are now over 650 articles, features, discoveries, news stories with mint error related info from the United States and around the World. Minterrornews.com has become the most popular and informative Internet resource for mint errors and is read by thousands of dealers and collectors.

Mint Error News was originally sponsored by Mike Byers and ANACS. Due to the popularity of mint errors and the magazine it is now sponsored by Mike Byers and several other mint error dealers including Allan Levy (alscoins.com) and Fred Weinberg (fredweinberg.com). Mike Byers is the Publisher and Editor of Mint Error News Magazine.

BYERS NUMISMATIC CORP
MIKEBYERS.COM

The Largest Dealer of the World's Rarest Mint Errors™
U.S. & WORLD MAJOR MINT ERRORS • DIE TRIALS • NUMISMATIC RARITIES

Mike Byers (mikebyers.com) has been a Professional Numismatist since 1978. He is the largest dealer of the world's rarest mint errors. He specializes in U.S. and World Major Mint Errors and Die Trials. His new discoveries of major mint errors have been front page news for years. He is a life member of ANA since 1985, a charter member of NGC and a featured dealer/member of PCGS. He

is a founder member of the California Coin & Precious Metals Association. He is also a life member of the Central States Numismatic Society and the Florida United Numismatists. He is member A71 in the Certified Coin Exchange (CCE). Mike Byers was a Consultant for ANACS for Mint Errors from 2000 through 2006.

Allan Levy has been specializing in Mint and Currency Errors for 25 years. His website features a diverse group of type errors, modern errors and major currency errors. He also handles regular U.S. and World coins. Allan Levy is a member of CONECA and the American Numismatic Association.

Fred Weinberg & Co.
Dealer in Major Mint Error Coins & Currency
fredweinberg.com

Fred Weinberg is the President of Pacific Rim Numismatics (DBA Fred Weinberg & Co.). He is a highly respected numismatist, with 35 years of full time experience in the rare coin marketplace. His professional associations include the American Numismatic Association (ANA) (38 years), the Professional Numismatist Guild (PNG) (31 years), The Industry Council for Tangible Assets (ICTA) (21 years) and The Numismatic Literary Guild. He is a past President of the Professional Numismatist Guild (1999-2001).

Additional sponsors of Mint Error News are Heritage Auction Galleries, CoinLink, CoinFacts.com, uspatterns.com and errorworldclub.org. We encourage collectors and dealers to submit articles and photos of major mint errors that we may feature on the website.

Off-Center Mint Error Sales

by Al Levy (alscoins.com)

Here are records of recent sales of off-center mint errors on eBay:

1. All coins were listed on eBay and closed from November 1, 2008 to December 31, 2008.
2. All lots had buyers. If the coins actually changed hands is unknown.
3. A picture accompanied each lot or it was not recognized.
4. Mislabelled items were ignored.
5. Some lots may have changed hands more than once.

6. "D" next to the date symbolizes that the coin had damage or was scratched.

7. "C" next to the date symbolizes that the coin was cleaned.

8. "B" next to the date symbolizes that the coin had damage and was cleaned.

9. If the date or mint mark was missing or partially visible, parentheses were used.

10. Postage/handling/insurance fees were ignored.

11. Major auctions were not listed.

Double Denomination & Off-Metal Mint Error Sales

by Al Levy (alscoins.com)

HERE ARE RECORDS OF RECENT SALES OF DOUBLE DENOMINATION & OFF-METAL MINT ERRORS ON EBAY FROM OCTOBER 1, 2008 TO DECEMBER 31, 2008.

1. ALL LOTS HAD BUYERS. IF THE COINS ACTUALLY CHANGED HANDS IS UNKNOWN.
2. A PICTURE ACCOMPANIED EACH LOT OR IT WAS NOT RECOGNIZED.
3. BLURRY PICTURES OR OTHER PROBLEMS ARE NOTATED UNDER "OBSERVATION".
4. ITEMS MISLABELLED COMMANDED A SMALL PREMIUM.
5. SOME LOTS CHANGED HANDS MORE THAN ONCE.
6. ANY SCRATCHES, DENTS OR DEFECTS NOTATED WERE EITHER IN THE DESCRIPTION OR GRADING SERVICES' HOLDERS.
7. AUCTION HOUSES THAT LISTED THESE ERRORS WERE IGNORED.
8. SHIPPING CHARGES ARE NOT INCLUDED.

DESCRIPTION	GRADED	SOLD	OBSERVATION
DOUBLE DENOMINATIONS			
1986-P STRUCK CENT ON A STRUCK DIME	ICG 58	\$455.00	2ND STRIKE FLIPOVER. TWO FULL DATES + MM. LOTS OF OTHER DETAIL.
1998-P STRUCK CENT ON A STRUCK DIME	NGC 68	\$762.00	2ND STRIKE FLIPOVER. COULDN'T TELL FROM PICTURES HOW MUCH DETAIL SHOWED?
1999-P STRUCK CENT ON A STRUCK DIME	NGC 67	\$717.00	2ND STRIKE 90 DEGREE CCW TURN. LINCOLN'S DATE. DIME'S MM.
2000-P STRUCK CENT ON A STRUCK DIME	NGC 67	\$671.53	2ND STRIKE 90 DEGREE CW TURN. TWO DATES + MM.
2001-P STRUCK CENT ON A STRUCK DIME	NGC 67	\$961.00	2ND STRIKE 60 DEGREE CW TURN. LINCOLN'S DATE. DIME'S MM.
ND STRUCK CENT ON A STRUCK DIME	BU	\$560.00	FLIPOVER. LOTS OF DETAIL. NO DATES OR MM.
ND STRUCK CENT ON A STRUCK DIME	NGC 65	\$676.66	2ND STRIKE 180 DEGREE TURN. NO DATE OR MINTMARK.

Buffalo Nickel “Speared Bison” & Wisconsin Quarter “Extra Leaves”

by Al Levy (alscoins.com)

AN IMPORTANT OBSERVATION ABOUT THE BUFFALO 5c “SPEARED BISON” & THE WISCONSIN 25c “EXTRA LEAVES” IS THAT THIS CHART INCLUDES EBAY ITEMS ONLY. DEALERS ARE STOCKING AND SELLING THESE AT SHOWS. PRICES HAVE TAKEN A MAJOR DOWNTURN. DEMAND HAS DIMINISHED GREATLY FOR THE SPEARED BISON. THE MAJORITY OF LISTED COINS REMAINED UNSOLD. EXTRA LEAFS HAVE GONE DOWN IN PRICE AS MORE ENTERED THE MARKET.

THE HIGH LEAF IS SCARCER THAN THE LOW LEAF. CHECK OUT THE SALES TOTALS AS BOTH VARIETIES ARE ABOUT THE SAME IN QUANTITIES. STILL VERY ACTIVELY TRADED.

END OF ROLL COINS. COLLECTORS NEED TO KNOW THAT THERE IS A MACHINE ON THE MARKET THAT WILL ALLOW ANYONE TO ROLL YOUR OWN COINS. IT IS A CRIMPING MACHINE TO BE USED WITH PRE-CRIMPED (SHOTGUN SHELL) STYLE WRAPPERS. BUYER BEWARE!!!

HERE ARE RECORDS OF RECENT SALES ON EBAY FROM OCTOBER 1, 2008 TO DECEMBER 31, 2008.

SPEARED BISON” 2005-D - DIE GOUGE THROUGH THE CENTER OF THE BISON ON REVERSE:

Waffled Coin Sales

by Al Levy (alscoins.com)

WAFFLED COINS ARE THE MATERIAL DESTINED FOR RECYCLING BACK TO THE MANUFACTURER. THIS ALSO INCLUDES CONDEMNED COIN BINS OR FLOOR SWEEPED MATERIAL. WAFFLED ERRORS BRING SUBSTANTIALLY HIGHER PRICES THAN ANY THAT SHOW NO ERROR. MANY OF THESE CENT THROUGH DOLLAR SLABBED WAFFLES ARE SHOWING UP AT THE MAJOR SHOWS AND EASILY TRADED.

THE US GOVERNMENT CLAIMS THESE ARE NOT COINS.

HERE ARE RECORDS OF RECENT SALES ON EBAY FROM OCTOBER 1, 2008 TO DECEMBER 31, 2008.

Rotated Reverse Sales

by Al Levy (alscoins.com)

COLLECTORS OF ROTATED REVERSE ERRORS REQUIRE THESE COINS TO HAVE AT LEAST A 45 DEGREE ROTATION. ANYTHING LESS MIGHT ONLY COMMAND A VERY SMALL PREMIUM OVER NORMAL RETAIL. SOME SERIES HAVE MINOR ROTATIONS THAT HELP IN IDENTIFYING THAT THE COIN IS AUTHENTIC. EXAMPLES: (1c 1914-D, 10c 1916-D.) PROOFS, EARLY LINCOLNS, BUFFALO NICKELS, MERCURY DIMES, EARLY TYPES ARE ALL KNOWN TO HAVE MINOR ROTATIONS.

PLEASE NOTE: THE LIST BELOW MAY CONTAIN ERRORS. THE LOTS DESCRIBED DID NOT ALWAYS NOTATE THE DEGREE OF ROTATION. OR, IF IT WERE CLOCKWISE (CW) OR COUNTERCLOCK WISE (CCW). THERE ARE ONLY A FEW COINS LISTED BELOW THAT SHOW A LESS THAN 45 DEGREE ROTATION.

HERE ARE RECORDS OF RECENT SALES ON EBAY FROM JULY 1, 2008 TO DECEMBER 31, 2008.

Double Struck / Double Dated Sales

by Al Levy (alscoins.com)

IN THE PAST FEW YEARS COLLECTORS HAVE COME TO REALIZE HOW SCARCE DOUBLE STRUCK, DOUBLE DATED COINS ARE. TO FIND TWO DATES AND TWO MINT MARKS ON THE SAME COIN IS EVEN MORE DESIRABLE. A COIN IN WHICH THE 2ND STRIKE IS UNIFACE WILL BRING LESS MONEY THAN ONE THAT IS DIE STRUCK. "FLIP-OVERS" COMMAND AN EVEN HIGHER PREMIUM.

HERE ARE RECORDS OF RECENT SALES ON EBAY FROM JULY 1, 2008 TO DECEMBER 31, 2008.

DESCRIPTION	GRADED	SOLD	OBSERVATION
1c 1981 TWO FULL DATES + MM AREA'S.	PCGS 62 RED	\$324.24	2ND STRIKE FLIPOVER 60% OFF CTR & UNIFACED. (2ND DATE STRETCHED)

Counterfeit & Questionable Mint Error Sales

by Al Levy (alscoins.com)

THERE ARE SO MANY QUESTIONABLE "ERROR" COINS IN EBAY AUCTIONS THAT IT IS IMPOSSIBLE TO NOTATE ALL OF THEM. MOST OF THESE COINS ARE BEING SOLD AS AUTHENTIC ERRORS. OTHERS DO NOT FOOL THE COLLECTOR BUT THEY MAY WANT ONE OF THESE AS AN EXAMPLE IN THEIR COLLECTION.

MATED PAIRS AND CHAIN STRIKES MUST MATCH 100%. THE SOLD ITEMS LISTED BELOW WERE VERY OBVIOUS THAT THEY DID NOT MATCH. A NEW SELLING TECHNIQUE IS TO PLACE TWO OFF CENTER COINS TOGETHER TO LOOK AS IF THEY WERE STRUCK AT THE SAME TIME. THESE ARE BEING SOLD AS MATCHED PAIRS. BUYER BEWARE.

IN MY OPINION, COUNTERFEITS SHOULD BE SLABBED BY THE MAJOR GRADING SERVICES AS THESE ARE HIGHLY COLLECTIBLE. IF THEY CAN ENCAPSULATE "WAFFLED COINS", MADE TO ORDER "ERROR COINS" BY PRIVATE MINTS AND PRIVATE COUNTERSTAMPS, WHY NOT THESE?

THIS LISTING IS MOSTLY MY OPINION AND IS NOT NECESSARILY THE OPINION OF THE EDITOR OR THE BUYER.

HERE ARE RECORDS OF RECENT SALES ON EBAY FROM JULY 1, 2008 TO DECEMBER 31, 2008.

DESCRIPTION	GRADED	SOLD	OBSERVATION
1c 1943 COPPER CENT "NOT A FAKE"	PCI REJECT	\$801.00	PCI LETTER STATED "TOO DAMAGED TO GRADE". LAST DIGIT WAS DAMAGED. LOOKED LIKE AN "8". WEIGHS 3.1 GRAMS.230303419163

PCGS Certifies Unique Set of SPECIMEN Silver Certificates

by Mike Byers

For over thirty years, I have handled many unique rarities and new discoveries from the U.S. Mint and the Bureau of Engraving and Printing. My rarities and discoveries have been featured on the front page of *Coin World* and numerous other publications including *CoinLink*, *Numismatic News*, *Mint Error News* and others. Some of these discoveries were numismatic rarities, unique mint errors, die trials, test pieces and U.S. currency errors. I'm proud to present my latest discovery, a complete set of unique Specimen Silver Certificates certified by PCGS. It was just purchased via private treaty and originated from The Bank of Poland.

Collectors and historians now have

the opportunity to view this previously unknown complete set of U.S. Specimen Silver Certificates. Fortunate collectors may acquire U.S. Specimen notes on current denominations when one occasionally surfaces. To obtain a complete set of previously unknown Specimen Silver Certificates, in superb preservation and certified by PCGS, is a once in a lifetime opportunity for the serious collector of historic rarities from the U.S. Mint or the Bureau of Engraving and Printing. The U.S. Treasury Dept. has been very careful not to divulge the experimental development of U.S. Currency. One of the biggest insights into test notes or patterns, if you will apply a Numismatic term to U.S. paper money, was the discovery of the Giori Test Sheets the

Bureau of Engraving and Printing (BEP) discarded that were recovered later at a landfill, as rumor has it.

These Test Sheets are mostly cut now. However, uncut sheets are desirable and they are very wonderful to study and examine because assay or test notes have either been destroyed or they are seldom displayed by the BEP.

Unlike U.S. currency, U.S. pattern coinage and test pieces have been bought and sold and in some cases traded by the U.S. Mint with collectors and have been avidly studied by Numismatists since 1792. In fact, the finest known 1792 Half Dimes (5 Cent Piece) was just sold for over 1.5 Million Dollars. This

PCGS Certifies Unique Set of SPECIMEN Silver Certificates

coin is one of the first test pieces struck by the U.S. Mint. The silver used to produce these test pieces came from George and Martha Washington's personal sterling silver set.

Small size Silver Certificates (Series 1935D the Narrow Margin variety) were printed on the old presses in 12 subject sheets. The new Giori paper presses printed 18 subject sheets and the 1935D series back or reverse design was modified into what is known as the Wide Margin variety. 1935D is the "transition" series silver certificate with the onset of the new Giori presses.

Billions of U.S. Dollars are overseas and the BEP made SPECIMEN notes for Foreign Banks to aid in the authentication of U.S. Paper Money abroad. This is not a new concept as "Currency Shields" were made during the 1860's for U.S. Banks to authenticate the new "Fractional" currency being made in America during a time when new notes not seen before were being quickly issued. These shields are very desirable and collectors buy

and sell the few that are available.

Specimen notes are extremely rare and very few are known to exist today. The 16 silver certificates which are pictured here are from The Bank of Poland. It is believed that these 16 notes were issued after the Giori Test period as The Bank of Poland was provided only with the before and after 1935D wide and narrow types and then all of the following issued Silver Certificates. This group represents the complete set of silver certificates issued by the United States after the Giori Press came into use.

Up until the discovery of this unique set, the only known Specimen Silver Certificate was a \$10 1934A North Africa Specimen Silver Certificate. It was recently featured in an auction. This Specimen was printed with no special serial number, the word SPECIMEN was punched into the note and not printed in red ink by the BEP nor is there a definitive or documented reason why it exists. This note was stained and very worn and was not authenticated or certified by a major grad-

ing service. It was valued at \$5,000 even considering the condition and lack of authenticity and documentation. The difference between this note and the discovery of these 16 Specimen Silver Certificates is that these were clearly presented to The Bank of Poland. This is evident by the serial numbers, quality of preservation, authentication by PCGS and it's presentation to the bank as a complete set of Specimen Silver Certificates.

The Silver Certificates featured in this unique set have the word SPECIMEN printed in red ink on both sides by the BEP. These notes are the only known Silver Certificates of this type in private hands. Every note has a solid non-zero serial number indicating it was legally issued. Specimen notes of solid zeros are subject to confiscation but Specimen notes with a serial number are not the subject of Government confiscation. Banks are not State owned and therefore their contents can be bought and sold. The Bank of Poland sold these notes which were originally obtained from the U.S. Government.

- **This set is Unique.**
- **Each note is Unique.**
- **No other specimen silver certificates are known to exist with SPECIMEN printed in red ink by the BEP.**
- **Each notes' serial number is known as a "ladder" as the serial numbers go up from 1 to 8.**
- **Each note is a major rarity.**
- **This is a unique discovery set of Specimen Silver Certificates that The Bank of Poland originally obtained from the U.S. Government.**

A Serendipitous Mint Set Find:

(2007) SMS James Madison Missing Edge Lettering Dollars

By NGC (ngccoin.com)

NGC recently received a submission of 16 James Madison dollars missing edge lettering. While Presidential \$1 coins without edge lettering continue to be found, these coins were especially noteworthy. They were not regular currency issue strikes but instead were found in Mint Sets and therefore have the satin finish unique to Mint Set coins. Accordingly, they were certified by NGC with the SMS designation for “Special Mint Set.”

All 16 coins were submitted by Allan Levy of Al’s Coins, a dealer and specialist in mint error coins. He acquired them from another dealer who works with a number of shops on the East Coast, and looks through Mint Sets to find special or unusual coins. According to Levy, this gentlemen had previously located John Adams coins with weak and partial edge lettering, but he “hit the mother-load” when he discovered sixteen 2007 Mint Sets with plain edge James Madison dollars.

Edge lettering is applied to struck coins during a secondary process whereby they are passed through an edge lettering machine. If this step

is missed, the coins will have blank edges, without date, mintmark and mottos. Since these Madison dollars had already been removed from the Mint Sets when Levy purchased them, it is unknown whether these coins originated at the Philadelphia or Denver Mint.

“These are the first plain edge

Madison dollars from Mint Sets that we’ve certified, and Madison errors on the whole have been notably scarcer than the other Presidential dollars issued in 2007. With such exciting finds to be made, people should remember to double check their sets,” comments David Camire, NGC Special Mint Error Consultant.

Feeder Fingers Discovered From Several South American Countries

Editor's Note: The first coin struck on an actual feeder finger was headline news in the numismatic community. It was a Chile 10 Pesos double struck on the actual feeder finger and was featured on the cover of the first issue of Mint Error News Magazine. Since then, a few more have been discovered. Here are a few examples from various South American countries.

The FUN Convention

The error coin market as it looks today...

by Rich Schemmer (richerrors.com)

The FUN convention was much better than expected, especially for error coins. Despite all of the problems in the economy, most dealers were very optimistic as to the Numismatic market. While numismatics in whole were a bit slow, we heard scattered good & bad sales reports from dealers. The error dealers that attended the convention were extremely happy. Sales were up, more coins than usual were offered for sale and the error part of the auctions drew some very high bids on better coins.

We had a number of non-error coin dealers purchasing error coins, including several from Poland & Germany. Almost all paid by cash and very few

transactions were done by check.

Off-metals still remain very hot, as well as most eye appealing errors. Off-center Cents and Nickels were flying out of our showcase at full retail prices along with 2 major off-center Ike dollars.

Even though many were expecting gloomy reports on this error coin market, I can honestly say it was just the opposite as the convention was very active.

We will be attending the WESPNE Westchester, NY coin show for just one day on Friday, January 23rd, as we leave for vacation the next day. If you have a need to see us and check out our inventory, make sure to do so on Friday.

The United States Department of the Treasury \$100 Specimen Note

Editor's Note: Occasionally the Bureau of Engraving and Printing would prepare and release a United States specimen note. The specimen featured here included information from the United States Department of the Treasury regarding new security features. These specimens were given to foreign banks as well as banks within the United States. This specimen is a \$100 bill from 1990 and features the larger portrait of Benjamin Franklin. The serial number is a consecutive series of digits beginning with 2 and ending with 9. This is referred to as a ladder note. Notice that SPECIMEN is printed in red on both the face and back.

The United States Department of the Treasury \$100 Specimen Note

The United States Department of the Treasury \$100 Specimen Note

New Security Features for United States Currency

Security Thread

Embedded polyester strip with repeated USA 100 in a verticle pattern. Visible when held to light. Cannot be reproduced in reflected light of copiers. In new Series 1990 notes.

Microprinting

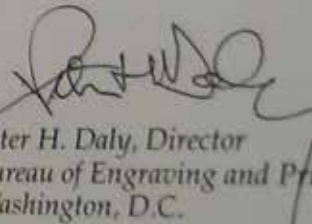

"The United States of America" printed repeatedly on sides of portrait. Letters too small for distinct copier reproduction but can be read with a simple magnifier. In new Series 1990 notes.

The United States Department of the Treasury \$100 Specimen Note

This specimen one hundred dollar note is presented to you with my compliments.

Peter H. Daly, Director
Bureau of Engraving and Printing
Washington, D.C.

WHAT IS A VARIETY?

by NGC (ngccoin.com)

A variety is a coin that has characteristics specific to the die pair that struck it. Most collectible varieties can thus be traced to a set of dies.

There seems to be some confusion as to exactly what constitutes a variety. In United States numismatics, a variety may be defined as a die or die pairing that offers some distinctive feature not a normal part of the design. For early U. S. coins, those made before the introduction of the reducing lathe in 1836, every die required extensive hand punching of letters, numerals and other small features. Therefore, each and every die was distinctive, and each die pairing constitutes a variety. Thus, all coins from this period are of some identifiable variety, and each die pairing may be identified by number under NGC's VarietyPlus service.

In the case of modern coins, most features of the design were included in a master hub, from which a series of transfers were made to produce working dies. Very little hand punching was done, aside from the addition of the date and mintmark. Since early in the last century, the date has been an integral part of the master die for each year and has not varied within that year. The same has been true of mintmarks since 1990, and today's coin dies are typically indistinguishable. Though

numerous doubled dies, overdates, repunched mintmarks and the like have occurred over the past century, these were the exceptions rather than the rule. Nevertheless, they do qualify as varieties and may be attributed as such under NGC's VarietyPlus service.

NGC utilizes numerous other designations that do not, however, constitute varieties. These include designations such as FH for Full Head, FT for Full Torch and FBL for Full Bell Lines. Likewise, the designations BN, RB and RD for Brown, Red-Brown and Red, respectively, are not varieties. The coveted star designation is utilized by NGC to identify coins that have exceptional eye appeal for their grades. All of these are designations that NGC's graders look for in the normal course of grading. They are not classified as varieties, they do not require an additional fee, and they do not need to be submitted under VarietyPlus.

Pattern coins are attributed by Judd (J) numbers, while fractional gold coins are attributed by Breen/Grillo (BG) numbers. These attributions are likewise made in the normal course of grading and do not require that such pieces be submitted under VarietyPlus. Also, there is no additional fee for these attributions. Finally, mint error coins are not attributed under VarietyPlus service.

NGC will grade and attribute mint errors at its regular tier fees, and such coins do not require the additional VarietyPlus fee.

What types of varieties does NGC recognize?

Die pairings for pre-1836 US coinage:

- Doubled Dies
- Repunched Dates
- Repunched Mint Marks
- Misplaced Dates
- Misplaced Mint Marks
- Over Mint Marks
- Overdates
- Muled Clashed Dies
- Varieties Causing Design Variation (such as 1937-D 3 LEGS 5C, 2004-D EXTRA LEAF LOW WISCONSIN 25C).

NGC does not attribute as varieties coins that display Strike Doubling, Abrasion Doubling, Die Deterioration Doubling, Master Die Doubling (doubling that is found on all coins made produced from that master die), insignificant die chips, breaks, cracks or any variety coin that falls under mint tolerances for doubling or normal die wear.

With few exceptions, NGC will not attribute die varieties that require greater than 5x magnification to be clearly recognizable.

1915 Panama-Pacific Half Dollar Struck in Gold Sells for \$345,000 In Heritage Auction

Editor's Note: The following description is taken from the Heritage Auction Galleries listing.

Design: The design is the same as the regular-issue 1915-S Panama-Pacific commemorative half, but lacking the normal S mintmark. Struck in gold with a reeded edge.

Commentary: Other S-less Panama-Pacific half dollar patterns are also known in silver and copper. These extremely rare patterns were clearly clandestine strikes, produced at the Philadelphia Mint before mintmark punches were applied to the working dies. There are two known examples of the gold half dollar, both struck on cut-down, struck Saint-Gaudens double eagle coins. Similar examples are known of the 1915 Panama-Pacific gold dollar and of the round and octagonal fifty dollar pieces, all lacking the S mintmark. The website USPatterns.com comments of the pieces, "These could be die trials but it seems that they were really struck for profit."

Pollock comments in his United States Patterns and Related Issues:

"Farran Zerbe, who was involved in the coining and distribution of the

1915 Panama-Pacific Half Dollar Struck in Gold Sells for \$345,000 In Heritage Auction

Panama-Pacific commemoratives in California, has been quoted by Walter Breen as saying that specimens 'may have been struck as trial pieces at the Philadelphia Mint by the instructions of the Secretary of the Treasury, who was a coin collector.' The Secretary of the Treasury at the time was W.G. McAdoo of New York, a name familiar to students of U.S. paper money."

Anthony Swiatek,
in his Com-
memorative
C o i n s
of the

United States (2001), writes much more unequivocally concerning the 1915 Pan-Pac half dollar, "Extremely rare trial pieces, made at the Philadelphia Mint, were struck without the S Mint mark. Two were created in gold, six in silver and four in copper for Treasury Secretary William

Gibbs McAdoo--a coin collector!"

Physical Description: Further along, Pollock records his notes on the present specimen:

"Careful examination of the Farouk-Norweb coin [the present coin, listed as No. 2 in the Census below] reveals planchet file marks and traces of an undertype, indicating that the half dollar dies were impressed on a cut-down \$20 gold coin,

1915 Panama-Pacific Half Dollar Struck in Gold Sells for \$345,000 In Heritage Auction

which had been filed to remove high-relief details. This piece is remarkably thick: 2.4 mm at the edge versus 2.1 mm for a regular-issue Panama-Pacific half dollar.

“The characteristics of the coin suggest that it was made clandestinely. Since the piece is overstruck instead of being made using a new planchet of normal thickness, it can be inferred that there was a desire on the part of the manufacturer that no mention of the piece be made in the

bullion account books, and thus it may have been produced secretly at the Mint in the same manner as the 1913 Liberty nickel or the Class III 1804 dollar. The only other known example of the variety is reportedly also struck over a cut-down \$20 gold piece.”

The reverse die of the present specimen is rotated about 40 degrees counterclockwise from normal coin turn with respect to the obverse. In contrast, the Brand-Johnson-ANA specimen, No. 2 in the census which we auctioned in 2003, shows only a slight counterclockwise rotation, on the order of 10 percent. The reverse of this piece also shows considerable evidence of the remaining Saint-Gaudens double eagle obverse under-type on the reverse, as follows:

1915 Panama-Pacific Half Dollar Struck in Gold Sells for \$345,000 In Heritage Auction

In the central shield area and to the rim below and on either side, traces of Liberty, the peripheral stars, the rock, the gown outline, the ASG monogram, and portions of a date (possibly 1916) appear, the last seen beneath the AR of DOLLAR. The juncture of Liberty's head, neck, and left (facing) arm appear under TAT and IN / WE. (See closeup photos.)

While the logical date to appear is, of course, 1915 rather than 1916, the last digit in the undertype date, while far from bold, appears tantalizingly to have a top loop that much more resembles a 6 than a 5. No trace of a mintmark appears above the date. This piece also has tremendous eye appeal, with generous luster radiating from yellow-gold surfaces that

occasionally deepen to orange-gold.

This piece is fairly conclusive evidence that, contrary to the prevailing view, chicanery and profiteering at the Mint did not die out in the 19th century. Farran Zerbe's reputation as a numismatic huckster is widely known, but others (possibly excluding Zerbe) may have been involved in the production of this piece--possibly some of the same personnel responsible for the 1913 Liberty nickels. An unparalleled opportunity for the numismatic researcher or collector of rare patterns.

Census:

Only two pieces are known.

1. Fred E. Olsen Collection (B. Max Mehl, 11/1944), lot 1769, which realized an astounding \$4,250; King Farouk; Palace Collections of Egypt (Sotheby's, 1954), lot 309; Norweb Collection (Bowers and Merena, 11/1988), lot 3307. The present specimen.

2. Virgil Brand; Burdette G. Johnson; Celina Coin Co.; A. Friedman; ANA (New England Rare Coin Auctions, 7/1979), lot 1365; Sound Beach Collection (Heritage, 11/2003), lot 11252, which brought \$165,000.85; Southern Collection; Simpson Collection. PR64 NGC.

From The Lemus Collection, Queller Family Collection Part Two.

CONECA

The Combined Organizations of Numismatic Error Collectors of America

CONECA is a national numismatic organization devoted to the education of error and variety coin collectors. CONECA focuses on many error and variety specialties, including doubled dies, Repunched mintmarks, multiple errors, clips, double strikes, off-metals and off-centers -- just to name a few. It publishes an educational magazine, The Errorscope, which is printed and mailed to members bimonthly. CONECA offers a lending library, examination, listing and attribution services; it holds annual meetings at major conventions (referred to as Errorama) around the country, and offers auction services to its members. Please visit conecaonline.org and enjoy!

CONECA Variety Attribution Services

CONECA offers two attribution services. One service enables members and non-members to send their coins directly to an authorized CONECA attributer. The other service is offered through the numismatic grading firm of ICG and enables CONECA members and non-members to have their coins attributed by a CONECA attributer and then graded and slabbed by ICG.

CONECA Error Examination Services

CONECA offers two examination services. One service enables members and non-members to send coins to an authorized CONECA examiner who will return an opinion of each coin's error classification. The other service is offered through the numismatic grading firm of ICG and enables CONECA members and non-members to have their coins examined by a CONECA examiner and then graded and slabbed by ICG.

2007 Denver Errors

by Fred Weinberg (fredweinberg.com)

Even though the U.S. Mint has drastically reduced the inadvertent release of major mint errors in the last few years, a few mint errors struck by the Denver Mint in 2007 recently surfaced. I'm sharing these with the readers of Mint Error News since it is an exciting find.

BYERS NUMISMATIC CORP

MIKEBYERS.COM

The Largest Dealer of the World's Rarest Mint Errors™
U.S. & WORLD MAJOR MINT ERRORS • DIE TRIALS • NUMISMATIC RARITIES

Consign Your Coins to mikebyers.com

Terms and Conditions

We are offering this service for error collectors and dealers alike. In order to post your item on our website you must agree to the following terms and conditions.

1. All major U.S. mint errors are accepted if they are certified by PCGS, NGC, ICG or ANACS.
2. The approximate value of each item must exceed \$5,000.
3. Each item must meet our inventory criteria in terms of desirability and market value.
4. Byers Numismatic Corp charges a 10 % commission for each sale.
5. The minimum time for any listing is thirty days.
6. Seller agrees to a seven day return privilege from date of receipt.
7. Seller agrees to use an escrow service if requested by the buyer.
8. We reserve the right to deny or cancel any listing at any time.
9. All listing are subject to prior sale.

Please do not offer us the following:

1. More than two coins bonded together.
2. Caps more than ½ inch high.
3. U.S. Errors that were obviously and intentionally struck as error coins. No impossible mint errors.
4. We only accept consignments of U.S. Errors that were legitimately released through normal distribution channels.

Scanning Specifications

1. Scan both the obverse and reverse of the entire holder.
2. Scan with a resolution of at least 300 dpi.
3. Save the picture in jpeg format (jpg).

Information Requirements

In addition to e-mailing a photo of your item, please include the following information:

1. Name, Address & Phone Number
2. E-Mail Address
3. Asking Price

After your item is listed, we will contact you by e-mail with any offers and questions. Once a price is agreed upon we will handle the entire sale for a 10% transaction fee, which includes all costs (eBay fees, grading fees, webmaster charges, postage and registration fees, insurance, paperwork, etc.).

If you have a Mint Error collection for sale or would like to sell your duplicates and do not want to consign your coin(s), we can purchase your entire collection outright. Please contact us at mike@mikebyers.com.

Presidential Dollar Mint Errors

The Missing Edge Lettering discovery on the George Washington Presidential Dollar was the biggest news story of 2007. Mint Error News has published a special edition of the magazine showcasing the Washington Dollar Missing Edge Lettering mint errors which can be viewed on minterrornews.com. Presidential Dollars featuring John Adams, the second president, were also discovered with the Missing Edge Lettering.

The numbers of Missing Edge Lettering Presidential Dollars on sub-

sequent presidents has been greatly reduced due to new procedures at the U.S. Mint. An example would be President Monroe Dollars that are missing the edge lettering. The number discovered so far is approximately 20.

Other major mint errors in the Presidential Dollar series are very scarce. Only two or three off-centers have been reported and only a handful of double struck coins have surfaced. Several Presidential Dollars have been discovered missing either an obverse or reverse clad layer. A few

of these Missing Clad Layers are also missing the Edge Lettering. To date, three Proof Presidential Dollars have been certified by NGC that were stuck on elliptical planchets. PCGS has certified a few with clips and a few that are broadstruck. Some of the major mint errors on Presidential Dollars are featured here.

Also featured in this article is an up-to-date chart showing the number of Presidential Dollars *Missing Edge Lettering* that are known or estimated.

Mint Error News Price Guide

- Entire Price Guide Updated 1/30/09 -

This price guide is brought to you by Mint Error News. It has been compiled by many of the top major mint error dealers.

This price guide is a guide. Prices fluctuate due to the date, grade, eye appeal and how dramatic the striking error is. Rarity is also a factor. The price is sometimes based on the rarity and grade of the type of coin as well as how rare the error is. The price can also vary depending on whether two collectors are bidding for the same rare major mint error. When purchasing a mint error, it is important to use multiple resources to determine value, as there are many mint errors that do not fit into one category.

Proof Errors

Proof coins are struck by technicians who hand feed the blanks into special presses. They are produced, examined, and packaged using extreme quality control. It is very unusual to find major proof errors. A few broadstrikes, off-centers, double strikes in collars and off-metals have been known to be found in sealed proof sets. Proof errors are aggressively sought after by many error collectors.

A very small group of Proof errors recently came from a collection that was auctioned by the State of California. The U.S. Secret Service inspected and released this collection to the State of California determining that it was legal to own. The State of California then auctioned the collection and it has been dispersed since the sale.

Denomination	Broadstrikes	Die Trials	Double/Triple Strikes	Off-Center Strikes	Partial Collar Errors
Proof Lincoln Cent	\$1,500 - \$2,500	\$1,000	\$4,000	\$1,500 - \$3,000	\$500
Proof Jefferson Nickel	\$2,500 - \$4,000	\$4,000	\$6,000	\$2,000 - \$5,000	\$1,000
Proof Clad Dime	\$3,000 - \$5,000	\$4,000	\$6,000	\$2,500 - \$5,000	\$1,250
Proof Clad Quarter	\$4,000 - \$5,000	\$5,000	\$10,000	\$7,500	\$1,500
Proof Clad Half	\$5,000 - \$7,000	\$4,000 - \$5,000	\$10,000	\$10,000	\$2,000
Proof Ike Dollar	\$15,000	-	\$25,000	-	\$4,000
Presidential Dollar	-	-	-	-	1 Known (Madison)

Mint Error News Price Guide

Broadstrikes

A broadstruck error occurs when a coin is struck without the collar to form the rim and edge that is part of the shape of the coin. Coins can be broadstruck on either type one or type two planchets. When a coin is broadstruck the blank being fed into the collar will spread and distort outward as it is being struck because the collar isn't in the correct position to retain it.

Partial Collars

Partial collar strikes occur when there is a malfunction of the striking press. This causes the collar to be in an incorrect position. The lower die (usually the reverse die) is recessed in the collar. This allows the coin which is going to be struck to have a formed rim. After a coin is struck the lower die raises upwards, pushing the struck coin out of the collar and ejecting it. If a blank entering the collar is not properly seated, it will only have partial reeding as it is struck. The edge of this coin will have a partial reeding and a partial blank surface area. Recently, the Mint has installed new machinery where either die can be installed in either position.

Uniface Strikes

Uniface coins occur when there have been two blank planchets in the press at the same time. The other blank will obstruct the die on either the obverse or reverse side, which will prevent it from having that design on the coin. There are many different variations involving uniface errors. In addition to having a 100% blank obverse or reverse, a coin can be struck off-center, with a blank planchet in the collar which will obstruct one side of the off-center. There are also mated pairs which have a combination of multiple errors which can include a side which is uniface. Finally, there are uniface strikes due to a die cap which adhered to the die, forming itself in the shape of a die and striking blank planchets.

Bonded Coins

Bonded coins occur when the feeder system, which supplies blank planchets to the coin press, malfunctions and jams. When this occurs, a struck coin is not properly ejected and another planchet is fed into the collar and is struck. This struck coin will land on top of the previously unejected strike. These coins will then crush and bond together. This may occur many times as more coins bond.

Coins Struck on Feeder Finger Tips

After a recent tour of the U.S. Mint in Philadelphia, it was discovered that the minting process had changed to some degree. One of the changes was that “feeder fingers” were used during the striking of all denominations of U.S. coins. Prior to this tour, U.S. coins that were struck on feeder finger tips were authenticated and described as being struck on aluminum scrap. Coins from all modern denominations have been discovered that were struck on the tips of these feeder fingers.

Struck Fragments

The blanking press takes the coils of metal strips and punches blanks out of it, ejecting the webbing at the other end. The webbing is cut into small scrap pieces to be melted and recycled. Occasionally a scrap piece will be mixed with the blank planchets and struck by the dies. Struck fragments are rare in the larger denominations. These can be uniface or die struck both sides and are very rare on type coins.

Mated Pairs

Mated pairs involve two individual coins with different errors that were struck together at the same time. Mated pair error combinations can be found in most error types and come in many shapes and sizes. Mated pairs can be overlapped when one of the coins is struck off-center on top of another coin. Another type involves a brockage where a struck coin was perfectly centered on a blank and restruck. Some mated pairs involve a die cap where the cap and brockage coin are discovered together, but this is a scarce find.

The rarest mated pair type involves two die caps (obverse and reverse) where both dies were capped at the same time and both die caps are mated. This last type is extremely rare and there are only a few known examples of mated pairs involving an obverse die cap and reverse die cap. There are several of these mated pairs known on Kennedy Halves including two dated 1976, which is the Bicentennial year. One of the most spectacular mated pairs involve two Barber Dimes, an obverse die cap mated to a reverse die cap and are unique.

Mated pairs can also involve an off-metal where a smaller blank planchet or smaller struck coin was struck on top of a larger coin. This type is extremely rare. The most spectacular pair known is a double struck Franklin Half which was mated to a Lincoln Cent. The Lincoln Cent blank was on top of the obverse of the struck Franklin Half. This pair was then struck together. It is unique.

Transitional Errors

A transitional error occurs when a coin is struck on a planchet from a previous year with different metal composition. The most famous transitional is a 1943 copper cent struck on a 1942 copper blank. 1943 cents were struck in steel because of the copper shortage during World War II. Other famous transitionals include 1965 coinage struck in silver instead of clad.

There are also transitionals struck on blanks for the next year. An example is 1964 coinage in clad instead of silver. Most recently, transitionals were discovered involving the SBA and Sacagawea Dollars of 1999 and 2000. There are eight known 1999 SBA Dollars struck on the brass planchet for the 2000 Sacagawea Dollar, and four known 2000 Sacagawea Dollars struck on a clad planchet for the 1999 SBA Dollar.

U.S. Gold Errors

Major mint errors on U.S. Gold coins are the most prized category of all mint errors. Gold errors are very rare and a few have traded in the \$75,000 to \$100,000 range. Even a broadstruck U.S. Gold coin can easily sell for \$15,000 to \$30,000 compared to a broadstruck Cent, Nickel, Dime or Quarter which all sell for well under \$10. Many serious collectors of Gold Errors have to wait patiently for months and sometimes even years to acquire that one special piece for their collection.

The prices listed here are for common dates in AU-Unc. Better dates and errors that are in gem condition are worth considerably more.

Denomination	Partial Collar	Broadstruck	Clipped Planchet	3% - 5% Off-Center	10% - 15% Off-Center

Indents

An indent error occurs when two blanks are fed inadvertently into the same collar, with one blank partly overlaying on top of the other. When the hammer die strikes this combination, the upper blank will be forced into the lower blank, creating a depression which is shaped similar to the upper blank. A scarce type of indent occurs when a blank intended for one denomination lands on top of a blank from a different denomination.

Die Caps

Die caps are caused when a struck coin sticks to the upper hammer die. Once the coin is struck to the die face, the reverse of the struck coin becomes the new die face. When the next blank is fed into the collar and the strike occurs, the reverse design of the adhered struck coin impresses itself into the new blank. This struck coin is a brockage strike. The coin that adhered to the upper die is known as a die cap. This process repeats itself as more coins are struck by the cap. The greater the number of strikes, the higher the cap metal will be pushed around the upper die shaft. Eventually, the cap brakes away from the die in the shape of a thimble.

Die Adjustment Strikes

Die adjustment strikes are also known as die trials. This error occurs when a coin is struck from the press with very little pressure. When the press is being set up and adjusted, extremely weak strikes occur as the strike pressure reaches its optimum level. These die trials are destroyed after being struck and are rarely found in circulation.

Double Denominations

One of the most expensive, popular, and desired types of errors are the double denominations. This error happens when a coin is struck on a previously struck coin of a smaller denomination. Examples are a cent on a struck dime, and a nickel on a struck cent. The most dramatic are those with considerable design visible from the original strike. There are a few known double denominations with different dates.

Brockages

A brockage error can only occur when there are two coins involved. One of the coins involved will always be a struck coin which has not ejected properly. That struck coin will find its way back between the dies and will be struck next to a blank planchet which was fed into the collar. The image of that first struck coin will be impressed into that side of the blank planchet. The result will be a second coin which has images of the first coin impressed into it. Those images will be pressed into the coin and the image will be in reverse. This incuse sunken image is known as a brockage.

Double & Multiple Strikes

When a blank planchet is struck by the dies, the normal procedure is for the feeders to eject the struck coin out of the collar and into a chute. If there is a malfunction and the struck coin isn't ejected, it may receive a second or third strike by the dies. A multiple struck coin can happen in many ways and have many combinations of errors.

(Since each double and multiple strike can vary from being 10% off-center to 90% off-center, the prices listed below can be substantially more based on the percent off-center and dramatic overall look.)

Off-Center Strikes

Off-center coins are one of the most common and best known types of errors. This happens when a blank which is supposed to be fed into the press, lands in the collar improperly. When this occurs only part of the blank is between the upper and lower dies. When the dies strike the blank, only that part will be struck with a design.

Off-Metals

Off-metal and wrong planchet errors occur when a correctly made blank from one denomination is accidentally fed into a press for another denomination. Examples are a nickel struck on a cent planchet and a cent struck on a dime planchet. The coin struck on an incorrect blank will weigh exactly what the denomination of that blank would have been. An even more dramatic wrong planchet error is a coin struck on a previously struck coin of a different metal.

Denomination	Off-Metal Planchet	Circulated	AU	Unc	Choice Unc – Gem

Counterbrockages

A counterbrockage error involves a cap die and a previously struck coin. When a cap die strikes a previously struck coin, the obverse design from that struck coin will be impressed into the cap. The result will be a design where the cap face will be an incuse brockage. When a new blank is struck by this cap die with an incuse brockage image, the obverse will have a raised and spread image from that incuse design of the cap. This brockage impression is known as a counterbrockage.

Mint Error News Price Guide

Fold-Over Strikes

A fold-over coin is one of the most dramatic types of errors. It occurs when the blank is standing vertically between the dies. During the strike, the force is so great that it bends and folds the blank. These fold-overs can be on-center or off-center, and come in many different shapes. There are a few fold-overs with multiple errors, either with an additional strike or fold-over. Denominations above quarters are very scarce.

Denomination	AU	AU Dated	Unc	Unc Dated

Martha Washington Test Pieces

There is one set of a Dime, Quarter and Half struck by Martha Washington dies that are permanently housed in the Smithsonian Institute, embedded in blocks of lucite. According to United States Pattern and Related Issues, by Andrew W. Pollock III, “the only trial pieces purported to have survived metallurgical testing in 1965 were the Dime, Quarter Dollar, and Half Dollar equivalent strikes in copper-nickel clad over copper.”

Mike Byers’ discovery of the Martha Washington Test Piece on a copper-zinc Cent planchet struck 10% off-center with a uniface reverse was a front page Coin World article on August 7th, 2000.

Denomination	Unc	Choice	Gem
Martha Cent	\$4,000	\$5,000	\$6,000

Missing Edge Lettering

A mint error has recently been discovered on the new Presidential Dollars. These coins inadvertently left the United States Mint without edge-lettering on them. The inscriptions 'In God We Trust,' 'E Pluribus Unum,' as well as the mint mark and year are absent from these errors.

(Prices as of September 20, 2008 and are for certified pieces by PCGS and NGC)

1984 Mint Error Catalog

Editor's Note: Here is another in a series of Mint Error Catalogs from Fred Weinberg when he was with Numismatics, Ltd. It is always exciting to compare current mint error prices with those from decades ago. Mint Error News Magazine thanks Fred Weinberg (fredweinberg.com) for sharing these with our readers.

Struck on outer ring only (Tag Reads). The opposite of the other listing "Struck on inner core" coin. This "ring" has some design on it that should have been on the core.	
2008 Chile 5 Pesos PCGS MS-64	\$115
Triple Struck-2nd & 3rd strikes 40% O/C. Comes w/ normal coin.	
2008 Chile 500 PESOS PCGS MS-66	\$300
Double struck-2nd strike 60% off-center. Beautiful & Dramatic.

COINLINK™

Your Source for Daily Numismatic News and Resources on the Web

Search:

CoinLink operates on one simple principle...

To provide the numismatic community with access to the “best” numismatic information, news and resources on-line.

CoinLink® was started in 1995 by Anteater Design Group Inc., and is headquartered in Longwood, Florida (just northeast of Orlando).

For over 12 years we have been proud to operate the most popular and comprehensive numismatic directory on the web, referring collectors to thousands of numismatic sites, and providing unbiased access to resources that are informative and relevant to collectors and dealers alike.

The reason for our success has been a willingness to listen to our users suggestions and provide innovative solutions to aggregating the diverse and ever changing sources of numismatic information available.

CoinLink does not buy or sell coins. We have NO commercial or financial interest in any company that does. We do NOT compete against our advertisers.

Rather, our goal is to provide a platform from which dealers and collectors can find each other and stay informed about what is happening within the marketplace and within the hobby.

As we move into our 12th year of operations, we want to thank all of the users, supporters and sponsors who have made CoinLink what it is today, and who continue to shape the direction in which CoinLink will grow in the future.

Scott Purvis - President
Anteater Design Group Inc.

FEATURED INVENTORY

\$1 John Adams (2007) PCGS MS66 - Multiple error:

- 1. 30% clipped planchet.**
- 2. Missing edge lettering.**

\$1,200.00

AL'S COINS FEATURED INVENTORY

1991 PCGS MS 64 - Double struck + off metal. Two cent strikes of which the 2nd strike is 75% off center. Struck on a clad dime planchet. Extremely scarce multiple error!

\$5,950.00

\$1 1924 PCGS MS 62 - Die adjustment strike, weakly struck reeding (edge). Peace dollar errors are very scarce.

\$4,995.00

AL'S COINS FEATURED INVENTORY

10c NGC MS64 - 90% silver reverse capped die. Multiply struck.

\$1,495.00

1981-P NGC MS 66 R&B - Off metal. Quarter struck on a cent planchet. Weighs 3.1 grams. Scarcer date! Very high grade.

\$1,695.00

AL'S COINS FEATURED INVENTORY

1958 PCGS MS 63 - Off metal. Quarter struck on a silver dime planchet. Most of these error types lack dates. Not a common error type!

\$1,695.00

ND SEGS MS 63 Multiple error: Reverse 25c cap struck on a copper cent planchet.

\$4,500.00

AL'S COINS FEATURED INVENTORY

Set of two coins. Thailand 1994 obverse & reverse "MULES". NGC MS67 struck by two obverse dies. NGC MS68 struck by two reverse dies.

\$1,000.00

AL'S COINS FEATURED INVENTORY

PCGS AU55 1963 quarter struck on a 90% silver dime planchet. There is an obverse indent on Washington's head not notated on the holder.

\$995.00

NGC MS 62 1945-S "War Nickel" struck on a Netherlands East Indies planchet. Weighs 3.1 grams.

\$895.00

AL'S COINS FEATURED INVENTORY

Mexico 1880 10 centavos trial strike. Gem Bu (R&B) - Multiple error:

- 1. Struck on a large copper planchet**
- 2. Overdate - 188/187**
- 3. Defective planchet - clamshell**

\$800.00

\$1 1987 Silver Eagle Gem Bu - Partial collar. Full "Railroad rim"

\$795.00

AL'S COINS FEATURED INVENTORY

1c 1916 Anacs Ms 64 R&B - Double error: Off center 10% with a straight clip K1:30 to K2:30. Nice "red & brown" color.

\$495.00

Half dime No date NGC VG 10 - Obverse mirror brockage. Extremely scarce error for this type.

\$1,500.00

AL'S COINS FEATURED INVENTORY

\$5 Gold blank planchet. SEGS slabbed no grade - weighs 3.43 grams.

\$1,500.00

1c 1935 PCGS VF35 - Double struck. 1st strike is on center. 2nd strike 15% off center and die struck.

\$550.00

AL'S COINS FEATURED INVENTORY

1c 1910 PCI FN12 (Red Label), damaged rim - Flipover in collar double strike. Reverse: Outline of Lincoln, Trust & the full date shows but is faint. Obverse: Both Wheatstalks, part of the words "United" & "of". Letter "T" of Cent runs across Lincoln's nose. Scarce error for date.

\$500.00

1c 1975-D Bu (Brn) - Mated capped pair. Two coin set. Top coin shows two distinct strikes. Bottom coin has two types of brockage - mirror brockage plus counterbrockage. Extremely scarce multiple error for a 34 year old set.

\$2,500.00

AL'S COINS FEATURED INVENTORY

1966 PCGS MS64 - Multiple error:

1. Off Metal - quarter struck on a clad dime planchet.
2. Off center - 30%
3. Obverse - 60% indent

Very scarce triple error off metal with a full date.

\$1,200.00

5c 1896 PCGS MS60

Broadstrike

\$650

AL'S COINS FEATURED INVENTORY

1c 2002-D PCGS MS 64 Red - Double struck and rotated 90 degrees. Very scarce error for year/mintmark.

\$695

Multiple error: No date double struck nickel, struck on a clad dime planchet. Unc with obverse & reverse damage. Both strikes off center & die struck.

\$1,200

AL'S COINS FEATURED INVENTORY

1943 off metal - 1c struck on a dime planchet. Weighs 2.43 grams. Weakly struck, but all numerals are clear. Horizontal obverse lamination across bottom. Coin looks cleaned at one time.

\$1,495

1998 U.S. Silver Eagle Struck on an Elliptical Planchet NGC MS 68. Elliptical planchets are among the rarest type of mint error. The larger the denomination, the fewer are known. The fact that this U.S. Silver Eagle exists that was struck on an elliptical planchet is unbelievable. Instead of weighing 31.10 grams, it weighs 26.59 grams. A spectacular error.

\$3,500

AL'S COINS FEATURED INVENTORY

(S) Mercury Dime Die Adjustment Strike NGC

\$950

1990-S Proof Lincoln Cent double struck NGC PF 67 Red. This San Francisco Mint Proof Lincoln Cent was double struck in the collar on the obverse. Most U.S. Proof errors that are known were struck in the late 60's and early 70's and were sold in a large estate a few years ago. This proof error is very unusual since the first strike was off-center at 3:00 and the second strike was centered, obliterating most of the original strike. Rare.

\$1,850

AL'S COINS FEATURED INVENTORY

1787 Fugio Cent Triple Struck SEGS VF 20

\$3,995

1964 Silver Kennedy Half uniface obverse double struck 95% off-center PCGS MS 63. This is a very unusual multiple error on a 1964 Silver Kennedy Half. The obverse was struck through a cap die on the first strike. The second strike was off-center and die struck both sides. This came out of an estate along with a few other dramatic Silver Kennedy Half Errors.

\$2,750

AL'S COINS FEATURED INVENTORY

2000-P Sacagawea Dollar triple struck with indent ANACS MS 63. This multiple error Sacagawea Dollar is very dramatic and unusual. It was struck three times and also has an indent on the reverse. It is part of a mated pair and a coin is out there somewhere that would mate to this Sacagawea Dollar.

\$1,750

2000-P Sacagawea Dollar struck three times on double clipped planchet ANACS MS 60. This Sacagawea Dollar was struck three times on a planchet that has two clips. It is a rare multiple error and is very dramatic. There is a scratch on the reverse which ANACS noted on the holder.

\$850

AL'S COINS FEATURED INVENTORY

1875-CC Liberty Seated Dime struck off-center ANACS F 12. All major errors on Carson City coins are rare. This Liberty Seated Dime was struck 15% off-center.

\$1,495

Lincoln Cent multi struck off-center on Dime planchet NGC MS 64. This Lincoln Cent was struck many times off-center on a clad Dime planchet. Part of the head is visible on the obverse but the reverse is uniface. It is an unusual combination of many different errors on one coin.

\$595

AL'S COINS FEATURED INVENTORY

Feeder finger used to produce Two Rupees coins. This piece came loose and was die struck. Part of the "2006" date shows on one side.

ERROR WORLD

Join the *hottest*
Error Coin Club on the Net!

e r r o r w o r l d c l u b . o r g

The Error World on-line coin club exists for the purpose of advancing the knowledge and the field of error coin collecting.

Error World is dedicated to the promotion, discussion and dissemination of facts and ideas about error coinage, both domestic and world-wide.

Error World exists as a vehicle to bring collectors of both foreign and domestic error coinage together in a professional and relaxed atmosphere where they can exchange information, display photos and engage in lively debate about error coinage.

Error World is a non-profit organization with all revenues being put back into the club to provide improved services to the members of the club.

Error World will, from time to time, accept contributions from designated Patrons in the form of contest prizes, and/or cash to be used to defray club expenses.

Error World will, from time to time, attempt to obtain sponsors from the numismatic field who will bring price saving offers to Error World members.

Introducing A New Mint Error Book By Mike Byers

World's Greatest Mint Errors

*A Guide to the Most Spectacular
Major Mint Error Coins*

Mike Byers

World's Greatest Mint Errors is an enjoyable resource packed full of some of the most dramatic, rare and extraordinary mint errors and die trials ever assembled in one publication.

This book combines stunning imagery with the most accurate information available to provide anyone interested in mint errors with the latest information on mint error coins from the United States and around the world. Hundreds of spectacular mint errors are pictured. Each error coin photo is presented in full color, and enlarged to enhance the smallest details. Some of the error coins featured in this book have never been seen by the public before, and each is described in great detail as to the type of error, the assigned grade, rarity and estimated value.

- **First published book on mint errors that accurately lists retail values.**
- **Accessible to any coin collector or numismatist, regardless of experience.**
- **Up to date with the latest information on new discoveries and new types of errors.**
- **Hundreds of rare, expensive, and famous coins to excite all collectors.**

Will educate and raise awareness in this fascinating area of numismatics. The release of World's Greatest Mint Errors will ignite an interest in non-collectors and advanced collectors alike. This book is a must have for every numismatic library!

Releasing on May 15th, look for copies of World's Greatest Mint Errors at your local coin shop, or visit amazon.com. You can also order from Zyrus Press by mailing to PO Box 17810, Irvine, California 92623, calling (888) 622-7823, or online at zyruspress.com.

World's Greatest Mint Errors

*A Guide to the Most Spectacular
Major Mint Error Coins*

The United States Mint produces billions of coins each year. But, on occasion, a coin escapes the Mint that was never intended for general circulation. These most unusual coins, called mint errors, can fetch tens of thousands of dollars from dealers or collectors in the numismatic market.

For anyone interested in learning more about these uncanny mint-made mistakes, *World's Greatest Mint Errors* is an enjoyable resource packed full of some of the most dramatic, rare and extraordinary mint errors and die trials ever assembled in one publication.

Hundreds of spectacular mint errors are pictured. Each error coin photo is presented in full color, and enlarged to enhance the smallest details. Some of the error coins featured in this book have never been seen by the public before, and each is described in great detail as to the type of error, the assigned grade, rarity and estimated value.

Also included at the end of most chapters are extensive price charts. This pricing was compiled by leading mint error dealers from within the professional numismatic community and will serve the reader well as a useful guide to mint errors and die trial values. The information found within these pages will bring anyone interested in mint errors up to date with the latest information on new discoveries, new types of errors and a collection of some of the most dramatic, unique and spectacular mint errors and die trials from the United States and around the world.

*A Guide to the Most Spectacular
Major Mint Error Coins*

About The Author:

A professional numismatist since 1978, Mike Byers is now the largest dealer of the world's finest mint errors, die trials and numismatic rarities. His new discoveries of major mint errors have been front page news for years.

Mr. Byers is a life member of the ANA since 1985, a charter member of NGC and a featured dealer/member of PCGS. He is a founding member of the California Coin & Precious Metals Association and a life member of the Central States Numismatic Society and the Florida United Numismatists. Mike Byers was a consultant for ANACS for mint errors from 2000 through 2006.

When Mike Byers is not at coin conventions buying and selling mint errors he is usually in his office with customers or editing the next issue of his mint error magazine or catalog.

Dealer in Major Mint Error Coins & Currency

fredweinberg.com

BUYING MAJOR ERROR COINS & CURRENCY

If you have a single major mint error coin, either a recent issue or an older type coin, or 1,000 Off-Center Cents, please contact us. We stock over 60,000 Major Mint Error Coins and constantly need to purchase Major Error Coins for our clientele (please note that we do not deal in or buy Die Varieties, Damaged Coins, Doubled Dies, Filled Dies, or Die Cracks).

We do buy Major Mint Errors - such as Off-Center, Off-Metals, Double Strikes, Clad Layers missing, Die Caps, Double Denomination, etc.

Because of the many differences in each Error Coin we request that you send scans of your coin(s) to us for our examination and firm offer.
